Subject/Teacher Administration and IT

Online activities

Theory booklets for Admin and IT have been uploaded to a new Folder in the Files area of Teams. The folder is called Learning at Home and contains all of the relevant PowerPoints that pupils need in order to complete the booklets.

We would expect that pupils should be able to complete at least one booklet and email to their relevant teacher before the Easter Break.

Practice your typing – use www.typingtest.com to help improve your speed and accuracy.

Alternative activities

You can download and write answer to the booklets we have mentioned above if you do not have access to a device all day or have to view on a phone which makes it difficult to type.
