Activities – S1-3

Year group

S1

S2

S3

Subject/Teacher

Chemistry – Mr Marscheider & Miss Patterson

Online activities

All pupils in the current S3 classes and those S3s that have told us they are taking Chemistry next year have been added to the Team LCKA S3 Chemistry. This will be updated weekly (Wednesday). All of the notes we have covered so far have been uploaded, as well as practice examples for those topics. The next topic has also been uploaded (PDF 2.8, Alkanols) along with an accompanying worksheet. The mark scheme for the examples will go up on Wednesday next week.

Alternative activities

If you cannot access Teams, look at BBC Bitesize (<https://www.bbc.co.uk/bitesize/topics/zqphvcw>) for information on Homologous Series and Everyday Consumer Products. There are also check tests to use for revision.
