Activities – S1-3

Year group

S1

S2

S3

Subject/Teacher S2 Environmental Chemistry

## Online activities

Sign in to Glow and go onto Teams.

Go onto S2 Orange folder and open Environmental Chemistry .

The notes for the lessons are uploaded as are the 'need to know' sheet and homework booklet.

This week:

Complete homework 1,2,3 (if you haven't already done so)

Read the note and answer questions on Fertilisers.

Answers for the questions above will be uploaded on Teams on Monday 30th March.

If you are struggling to get onto Teams during the day, it is usually quieter after 4pm.

## Alternative activities

If Teams is proving problematic you can use the following resources to help.

You Tube Clips

Science In Action – Fuels

Science in Action – Electricity for the future

Science in Action – Rocks

Science in Action – Climate change

Science in Action – Green Plants / Photosynthesis

You should take notes from these resources and they will also help with the questions on Teams.
